

DANIEL YETESHA

Data Analyst and Scientist

ABOUT ME

I am a Data Analyst with a BSc in Computer Science and strong skills in DAX, SQL, Tableau and Power BI. At the Bank of Abyssinia, I turn complex data into actionable insights to support strategic decisions. With a background in software development and data automation, I'm passionate about building efficient data models and impactful dashboards.

WORK EXPERIENCE

BANK OF ABYSSINIA — Addis Ababa, Ethiopia | Feb 2023 – Present

DATA ANALYST/SCIENTIST

BUSINESS INTELLIGENCE (POWER BI & TABLEAU)

- Design and develop executive dashboards for business performance monitoring and decision-making.
- Build interactive Power BI and Tableau dashboards with KPI tracking, drill-down analysis.
- Publish dashboards, manage data sources, and configure scheduled data refreshes.

SQL & DATA ANALYTICS

- Develop and optimize complex Oracle SQL queries, views, and stored procedures for reporting and analytics.
- Analyze customer, transaction, and digital banking data to identify trends and business insights.
- Extract, clean, and transform large datasets for reporting and decision support.

PYTHON AUTOMATION

- Develop Python automation solutions for reporting and business process optimization.
- Automate the generation of management-ready PowerPoint and Excel reports from Oracle Database.
- Automate report distribution through Microsoft Outlook.
- Develop database migration and data integration tools between Oracle databases and Excel.

REPORTING & BUSINESS INSIGHTS

- Prepare automated daily, weekly, and monthly executive reports and KPI summaries.
- Deliver actionable insights and data-driven recommendations to support strategic business decisions.

ANALYTICS APPLICATION DEVELOPMENT

- Develop internal analytics tools and web dashboards using React.js to simplify data exploration and reporting.
- Design user-friendly interfaces that enable business users to access and analyze data efficiently.

EDUCATION

UNIVERSITY OF GONDAR

BSc in Computer Science
3.89
2018 – 2022

ADDIS ABABA UNIVERSITY

MSc in Project Management
Thesis Title: The effect of AI based code generation tool on software development project productivity
2023 – 2026

LANGUAGES

- Amharic
- English

SKILLS

• Power BI	★★★★★
• TABLEAU	★★★★★
• SQL	★★★★★
• Python	★★★★★
• ETL Automation	★★★★★
• Git / GitHub	★★★★★
• Jupyter	★★★★★
• Predictive modeling	★★★★★
• Google Cloud Platform	★★★★★
• API Integration	★★★★★
